

YES!

COUNT ON ME TO BE PART OF THE SOLUTION!

REPRESENTATIVE RECRUITMENT FORM

I WANT TO BECOME PART OF THE SOLUTION TO MAKE DOCTORS COUNCIL SEIU STRONGER. Representatives are the vital life stream of any union and work for the greater good of all doctors and members. “The Union” cannot win everything for us, because **WE are the Union.** **OUR** Union cannot achieve success without **YOU!** You can be part of a strong voice for Doctors and Patients.

Doctors Council SEIU is launching a Representative program that has the goal of recruiting and having at least 1 Representative and 1 Alternate Representative for each department/unit, facility, shift and work area that we represent as well as each specialty. Becoming a Representative is voluntary and no election is needed. There is no limit to the number of Representatives for each area. There is no term of office other than an unending desire to improve matters for Doctors. The more Representatives we have, the stronger we will become. Training and support will be provided by Doctors Council SEIU staff.

Now more than ever Doctors are under pressure and face more difficulties in addressing patient care and working conditions. The key to be able to address doctors’ issues is to ask 4 critical questions: (1) What do we want? (2) What do we need? (3) What do we have the might for? (4) What will we fight for? We all share the same fight.

Our Union, Doctors Council SEIU, represents thousands of Doctors at hospitals and facilities. We are affiliated with the SEIU (Service Employees International Union), which has over 1.6 million members, is the largest and fastest growing Union and is the largest Union for healthcare workers in North America. We have good Union contracts that provide job protection, guaranteed wages and benefits and a voice in patient care with hospitals and providers for our Union Doctors.

Becoming a Representative means that you are willing to do one or more of the following:

- Advance and protect the rights and benefits of doctors under our contracts at work and process grievances
- Represent your colleagues to administration and management
- Attend meetings, including membership meetings and bargaining
- Build a united, organized and involved membership in the workplace
- Organize and recruit doctors into Doctors Council SEIU
- Communicate with colleagues through meetings, bulletin boards, and distributing information
- Take part in Committees at work such as on Patient Care, Health and Safety and Labor-Management
- Take part in Doctors Council SEIU committees, such as a Doctors Alliance to have our members, other doctors and other health care organizations advocate on doctor and patient care issues
- Participate in community activities, legislative action and politics as they affect doctors and patient care
- Bargaining: serve on the Bargaining Committee and take part in contract action
- Distribute The **BARGAINING BULLETIN!**
- Attend Rallies, Meetings Or Special Events To Show Our Support
- Leafleting The Public Outside our Facilities
- Picketing Outside our Facilities
- Sign Petitions
- Work Site Actions and Walking Through My Work Area and Speaking to Co-Workers
- Wearing Buttons and making our Union visible
- Advance and support the mission of Doctors Council and SEIU
